

Tuberculous Veterans' Section
The Royal Canadian Legion

DID YOU KNOW FOLLOWING THE FIRST WORLD WAR...

- Tubercular Veterans were denied pension and health benefits while amputee Veterans were offered the full range of government benefits?
- Tubercular Veterans who were denied government benefits became known as the "Nucleus of a Great Veteran Movement"?
- TVA formed a respected, well-structured advocacy service organization even though founding members were isolated in sanatoria across Canada?
- TVA became the "model" for the Canadian Legion organization and donated \$10,000 as an initial commitment?
- TVA's 4,000 members/14 Service Branches joined the Canadian Legion at the Veteran Unity Conference in Winnipeg?

100 years later, TVS Branches champion respiratory health, arming frontline medical heroes with respiratory equipment; advancing TB and respiratory research; and sponsoring Respiratory Therapist education.

Become a DUAL MEMBER

Tuberculous Veterans' Section (TVS) The Royal Canadian Legion

Purposes and Objects

The purposes and objects of the Tuberculous Veterans' Section (TVS) of The Royal Canadian Legion shall be:

- As laid down in the Act to Incorporate - The Royal Canadian Legion (1981) and as quoted in the introduction of the General By-Laws of The Royal Canadian Legion.
- As set forth in the Article of Faith between the Tuberculous Veterans' Section and The Royal Canadian Legion.
- To ensure that the proper provision is made for those suffering from tuberculosis or any allied pulmonary disease or injury contracted or aggravated during service in the forces of Canada or her Allies.
- To ensure reasonable pensions, employment for such that are capable, medical care and equitable provision for dependent families or tuberculous and respiratory disabled ex-service personnel.
- To assist by education, an example is the lessening of the prevalence of TB, and to cooperate with pulmonary associations wherever and whenever possible.
