

Hospital Net Reminder for Ham Radio Operators

This month's Georgia Hospital Net will be conducted this Sunday, May 7th. All operators are encouraged to participate.

Many of you have heard that GHA911 has been revamped and is now GHC911. This is the primary registration portal used by hospitals and facilities across the State to identify organizations and individuals active with the various coalitions. As a means of cleaning up the old database, they are asking everyone to re-register by going to <https://ghc911.org/member/member/register>.

When ARES representatives are registering, they should choose "ARES" as the Primary Facility and the specific Hospital as the Other Facility.

Questions may be directed to Bret Smith at W4HBS@arrl.net or 678-313-7230.
