

Georgia Project Firstline

Struggling with dialysis infection prevention education? Reach out to your region's Infection Prevention and Control Education Expert (IPCEE) and learn about free [Project Firstline education resources designed for dialysis](#).

Injection Safety for Infection Prevention in a Dialysis Setting

Developed in collaboration with

Learning Objectives

1. Indicate why injection safety is important in dialysis
2. Recognize some common mistakes health care workers make when preparing and administering parenteral medications that may lead to infection
3. Identify what can be done to improve injection safety practice

Meet the Georgia Project Firstline Team for Region C

IPCEE: Rajesh Shah, MBA, RN, CIC, CPHQ, CJCP, CPHRM (rajesh.shah@atriumhealth.org)

Region C Coalition Coordinator: Brittany Holcomb, MS, CHES

Region C Coalition Facilitator: Brenda Shields, CMA, RMA, BA

Region C Coalition Facilitator: Dawn May, M.ED.

Georgia Project Firstline can help you with [infection prevention education](#). Understanding the risk of infection can help stop the spread of infection.

Peggy McGee, BSN, RN, CIC

GHA Infection Prevention & Control Education Coalition Coordinator
